FLAMINIA

L'ECCELLENZA ITALIANA NELLA CERAMICA DI DESIGN

ITALIAN EXCELLENCE IN CERAMIC DESIGN

Ceramica Flaminia da oltre 70 anni produce sanitari in ceramica di qualità. Collaborando con i più importanti designer a livello internazionale e sotto la guida dell'art director Giulio Cappellini, l'azienda lavora sull'innovazione dell'ambiente bagno. Ricerca tecnica e formale fanno del marchio Flaminia uno dei testimoni del "saper fare italiano" nel mondo.

Flaminia nasce in un territorio votato da tempo alla produzione ceramica industriale, una lunga tradizione che permane nel suo Dna. Oggi è un'azienda 4.0 che applica i più alti standard tecnici del settore e l'esperienza delle maestranze specializzate.

Ancora oggi tutti i prodotti sono realizzati esclusivamente in Italia, nello stabilimento di Civita Castellana, dove viene eseguito ogni passaggio produttivo fino alla cottura in forno.

Per Flaminia la tutela della natura è molto più di un dovere morale e accompagna ogni fase del processo produttivo che avviene all'insegna dell'ecosostenibilità e dell'economia circolare. Gli edifici di nuova realizzazione sono stati costruiti seguendo i criteri dell'architettura sostenibile e e si inseriscono armoniosamente nel paesaggio.

Dietro ogni prodotto c'è l'intento di sperimentare con la materia ceramica, declinando forme e colori, per proporre una nuova estetica del bagno. Alla base dell'eccellenza di Flaminia c'è la formula tradizionale delle imprese italiane del design, sintesi della perfezione delle macchine e della perizia umana, che consente di esportare con successo in oltre 70 paesi del mondo.

For over 70 years, Ceramica Flaminia has been producing high-quality ceramic sanitaryware. By collaborating with leading international designers and under the direction of art director Giulio Cappellini, the company focuses on innovation in the bathroom environment. Technical and formal research make the Flaminia brand one of the ambassadors of Italian craftsmanship worldwide.

Flaminia was founded in a region long dedicated to industrial ceramic production—a tradition that remains part of its DNA. Today, it is a 4.0 company that applies the highest technical standards in the sector, combined with the expertise of skilled craftsmen.

All products are still made exclusively in Italy, at the Civita Castellana facility, where every stage of production is carried out, including the final firing process.

For Flaminia, protecting nature is much more than a moral duty; it is a guiding principle in every phase of the production process, which is based on eco-sustainability and circular economy practices. Newly constructed buildings have been designed according to sustainable architecture criteria and blend harmoniously into the landscape.

Behind every product lies the intention to experiment with ceramic material, exploring shapes and colours to propose a new bathroom aesthetic. At the core of Flaminia's excellence is the traditional formula of Italian design companies—a synthesis of technological precision and human expertise—which enables successful exports to over 70 countries worldwide.

SOLUZIONI DI RISCIACQUO AD ALTE PRESTAZIONI

HIGH-PERFORMANCE FLUSHING SOLUTIONS

goclean®

Eliminando la brida, il bacino del wc assume un aspetto simile al bidet, libero da parti nascoste e difficili da raggiungere; il flusso di risciacquo "controllato" assicura un perfetto lavaggio che garantisce igiene e pulizia.

By eliminating the traditional rim, the bowl of the pan assumes the appearance of a bidet free from hidden hard, to reach areas; while the flushing system guides the water avoiding splashes yet guaranteeing hygiene and a clean surface.

gosilent

go**silent** è il sistema che consente di avere uno scarico molto silenzioso. Può essere considerato un'evoluzione del progetto goclean che, eliminando la brida del WC, riduce il consumo di acqua e facilita le operazioni di pulizia e igienizzazione, abbattendo la rumorosità dello scarico.

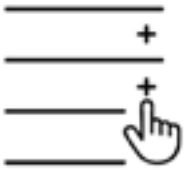

*go**silent** has been specially designed to serve as a silent flushing system. May be considered it a development of the goclean project, which, by doing away with the entire rim,reduces water consumption and simplifies cleaning and sanitising operations, reducing flushing noise.*

Da sempre sinonimo di innovazione per l'ambiente bagno, Flaminia continua a guidare il cambiamento con uno strumento dedicato a privati, progettisti e rivenditori: il configuratore on line per il bagno.
Pensato per offrire un'esperienza d'acquisto coinvolgente, intuitiva e personalizzata, consente con pochi clic di arredare il proprio bagno con i prodotti del marchio, combinandoli in tempo reale per valutarne l'effetto d'insieme. Il sistema mostra due viste separate, una per l'area lavabo e una per quella dei sanitari, permettendo così di ottenere una visione completa e coerente dell'ambiente. La navigazione è guidata passo dopo passo: si seleziona la collezione, poi il modello e il colore, infine si completa la composizione con rubinetteria e accessori. Una delle novità più interessanti è la personalizzazione simultanea delle due zone principali del bagno, ma il vero punto di forza è rappresentato dalla possibilità di visualizzare il risultato in realtà aumentata. Dopo aver configurato i prodotti, basta uno smartphone per vedere l'ambiente configurato prendere forma direttamente nel proprio spazio, ovunque ci si trovi. Una funzione utile e divertente che permette al cliente di scegliere con maggiore consapevolezza, rendendo ogni decisione più concreta e ragionata. Alla fine del processo si può scaricare un documento con l'elenco dei prodotti scelti, completi di codici e finiture.
Il configuratore è accessibile liberamente dal sito Flaminia ed è consultabile da pc, smartphone e tablet.

Flaminia has always been a synonym of innovation in bathroom sector and now it continues to lead change with a dedicated tool for private customers, designers, and retailers: the bathroom configurator available online.
Designed to provide an engaging, intuitive, and customized experience, it allows users to furnish their own bathroom with Flaminia products in just a few clicks, combining them in real time to evaluate the overall effect. The system displays two separate views—one for the washbasin area and one for the sanitaryware—ensuring a complete and coherent vision of the environment. Navigation is guided step by step: at first you can select the collection, then the model and colour, and finally you can complete the composition with taps and accessories.
One of the most interesting new features is the simultaneous customization of the two main bathroom areas, but the real strong point is the possibility to view the result in augmented reality. After having configured the products, a smartphone is all you need to see your bathroom becoming reality directly in its own space, wherever you are. A useful and amazing feature that allows clients to choose being well informed, making each decision clearer and well thought. At the end of the process, a document can also be downloaded with the list of selected products, complete with codes and finishes.
The configurator is free on Flaminia website and it can be used from PC, smartphone, and tablet.

Hasu

Design **GIULIO IACCHETTI,** 2026

Hasu 32 _ Castagno
art. HS32ACA

La famiglia di lavabi *Hasu* sboccia sul piano come il fiore di loto da cui prende il nome: un segno puro che trasforma lo spazio. Leggero ed essenziale, il lavabo emerge con naturale eleganza da una base d'appoggio ridotta. Nella versione su colonna, la silhouette si slancia ulteriormente, diventando un elemento architettonico di forte personalità. Disponibile nelle forme rotonda e ovale, può essere installato da appoggio o su colonna rastremata. *Hasu* è proposto nei nuovi colori lucidi Castagno, Miele e Tundra, oltre che negli altri colori della palette Flaminia. Bacino e colonna possono essere abbinati anche in tonalità diverse, per composizioni uniche e personalizzate.

The Hasu washbasin collection blossoms on the countertop like the lotus flower from which it takes its name: a pure form that transforms the space. Light and essential, the basin emerges with natural elegance from a minimal base. In the pedestal version, its silhouette becomes even more slender, turning into a striking architectural feature.
Available in round and oval shapes, it can be installed as a countertop basin or paired with a tapered pedestal. Hasu comes in the new glossy finishes Castagno, Miele, and Tundra, as well as in the full range of Flaminia colors. The basin and pedestal can also be combined in different shades, allowing for unique and customized compositions.

Norma

Design **ELENA SALMISTRARO,** 2025

Il lavabo freestanding *Norma*, dalla presenza scultorea e contemporanea, si distingue per la forma morbida e plastica: una colonna cilindrica che si sviluppa in verticale e sostiene il bacino su un piano integrato. Le linee avvolgenti donano all'insieme un'eleganza fluida. La vasca circolare è valorizzata da un elemento laterale rialzato, dettaglio asimmetrico che introduce dinamismo. Il piano d'appoggio, leggermente sporgente, è una soluzione funzionale per questa tipologia di lavabo e può essere utilizzato anche come piano per la rubinetteria, unendo estetica e praticità. *Norma* è un oggetto distintivo, capace di definire lo spazio con carattere e raffinatezza.

The Norma freestanding washbasin, with its sculptural and contemporary presence, stands out for its soft, fluid form: a cylindrical column that rises vertically to support the basin on an integrated surface. Its enveloping lines lend the piece a sense of flowing elegance.
The circular bowl is enhanced by a raised side element—an asymmetrical detail that introduces a dynamic touch. The slightly projecting surface is a functional solution for this type of washbasin and can also be used to accommodate the tapware, combining aesthetics with practicality.
Norma is a distinctive piece, capable of defining the space with character and refinement.

Settecento

Design **GIULIO CAPPELLINI,** 2019

La collezione di lavabi *Settecento* nasce da una ricerca formale ispirata alle acquasantiere barocche, tradizionalmente scolpite nel marmo. Il progetto reinterpreta questa ricchezza decorativa in chiave contemporanea, traducendola nel linguaggio essenziale e raffinato della ceramica. Grande attenzione è stata dedicata a spessori, curvature e proporzioni, per raggiungere un equilibrio armonico tra memoria storica e modernità.
Il risultato è un effetto tridimensionale inedito, in cui la luce scivola sulle superfici esaltandone i dettagli e la profondità materica.
Ogni soluzione della collezione diventa protagonista dello spazio bagno, trasformandolo in un ambiente di carattere, dove design e cultura classica dialogano con eleganza.

The Settecento washbasin collection stems from a formal exploration inspired by Baroque holy water fonts, traditionally carved in marble. The project reinterprets this decorative richness in a contemporary key, translating it into the essential and refined language of ceramic. Great attention has been devoted to thicknesses, curves, and proportions, achieving a harmonious balance between historical memory and modernity. The result is a distinctive three-dimensional effect, where light glides across the surfaces, enhancing their details and material depth.
Each piece in the collection becomes a focal point within the bathroom space, transforming it into an environment of character, where design and classical culture engage in an elegant dialogue.

I lavabi *Settecento*, nelle misure di 44 e 50 cm, sono progettati per un'installazione da appoggio e in abbinamento con la colonna rastremata, quest'ultima ne valorizza l'estetica raffinata, con forti richiami al classico, pur mantenendo una connotazione contemporanea. Il decoro a rilievo, distintivo della collezione, crea un sofisticato gioco di luci e ombre, conferendo a questi prodotti un carattere unico e un'eleganza senza tempo.

Settecento washbasins, available in 44 and 50 cm sizes, are designed for countertop installation or in combination with the tapered pedestal, which enhances their refined aesthetic. Strong references to classical design are balanced with a distinctly contemporary character.
The embossed decorative pattern, a hallmark of the collection, creates a sophisticated interplay of light and shadow, giving these pieces a unique identity and timeless elegance.

Monosettecento

Il *Monosettecento* è un elemento freestanding monolitico che cattura lo sguardo per la sua forte presenza scenica. Ispirato alle architetture classiche, ne rielabora i codici attraverso una forma essenziale che esalta la purezza e la tridimensionalità della ceramica. Ideale per ambienti di rappresentanza, questa versione a terra si impone come protagonista assoluta dello spazio bagno, coniugando eleganza senza tempo e carattere contemporaneo.

Monosettecento is a monolithic freestanding element that captures attention with its strong visual presence. Inspired by classical architecture, it reinterprets its codes through an essential form that enhances the purity and three-dimensionality of ceramic. Ideal for statement interiors, this floor-standing version establishes itself as the absolute focal point of the bathroom space, combining timeless elegance with a contemporary character.

DESIGN PLUS

Link

Design **G. CAPPELLINI - R. PALOMBA,** 1999

I sanitari *Link* sono progetti autonomi, pensati per chi cerca essenzialità e libertà compositiva. Il loro design puro e neutro dialoga armoniosamente con i prodotti delle altre collezioni Flaminia e si integra con naturalezza anche in contesti d'arredo diversi. La forma, studiata nei minimi dettagli, unisce minimalismo estetico e praticità d'uso. L'obiettivo progettuale era ambizioso: creare un oggetto innovativo, capace di svolgere una funzione quotidiana, ma anche di arredare con discreta raffinatezza. Con *Link*, il bagno si trasforma in uno spazio dove la funzionalità incontra il design, e ogni elemento racconta una scelta di stile consapevole.

Link sanitary ware pieces are standalone designs, created for those who seek essentiality and compositional freedom. Their pure, neutral design harmoniously interacts with products from other Flaminia collections and integrates naturally into a variety of interior settings. Carefully refined in every detail, their form combines aesthetic minimalism with everyday practicality. The design goal was ambitious: to create an innovative object capable of fulfilling a daily function while also furnishing the space with understated sophistication. With Link, the bathroom becomes a space where functionality meets design, and every element reflects a conscious style choice.

MINILINK

LINK

È nella versione sospesa che il minimalismo formale raggiunge la sua massima espressione: il corpo compatto, alto appena 20 cm, sembra fluttuare delicatamente sulla parete, come una mensola che si fonde perfettamente con lo spazio, lasciando il sifone a vista. I sanitari *Link* sospesi sono disponibili in due misure, la versione da 56 cm e la più piccola *MiniLink* da 48,5 cm, quest'ultima pensata per ambienti più intimi e dalle dimensioni ridotte.

It is in the wall-hung version that formal minimalism reaches its highest expression: the compact body, just 20 cm high, appears to float lightly on the wall, like a shelf that blends seamlessly with the space, leaving the trap exposed.
Link wall-hung sanitary ware is available in two sizes: the 56 cm version and the smaller MiniLink at 48.5 cm, the latter designed for more intimate spaces with reduced dimensions.

FLAMINIA COLORS _ CERSAIE 2023

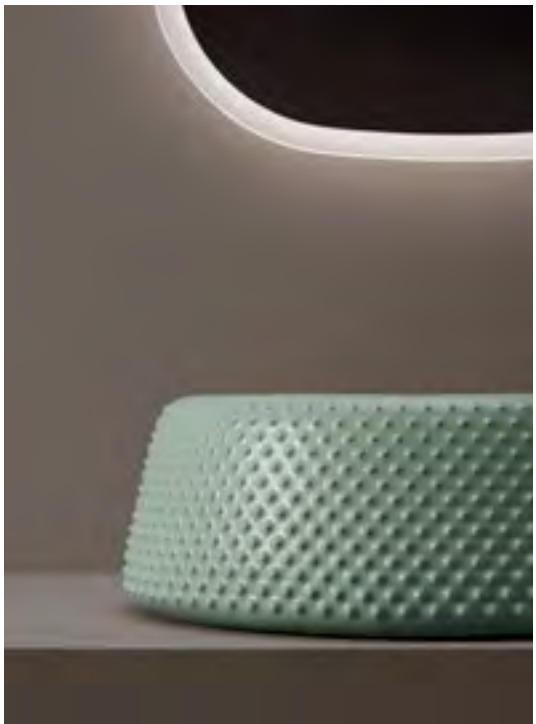

Falala

Design **ELENA SALMISTRARO,** 2025

Il lavabo da appoggio *Falala* è più di un elemento d'arredo: un incontro tra arte e funzione. La texture a rilievo puntinata, ispirata agli intrecci delle borse in paglia africane, dona profondità e movimento alla superficie, esaltandone la tridimensionalità. Le linee morbide e avvolgenti evocano una sensazione di abbondanza, richiamata anche dal nome di origine ghanese. Disponibile in una ricca gamma di colori lucidi e opachi, *Falala* si distingue anche nella finitura *Crystal*, che interagisce con la luce creando raffinati effetti chiaroscurali. Un oggetto distintivo, capace di portare carattere ed emozione nello spazio bagno.

The Falala countertop washbasin is more than a furnishing element: it is a meeting point between art and function. The dotted embossed texture, inspired by the weaves of African straw bags, adds depth and movement to the surface, enhancing its three-dimensionality. Its soft, enveloping lines evoke a sense of abundance, also reflected in its Ghanaian-derived name. Available in a rich range of glossy and matte colors, Falala also stands out in the Crystal finish, which interacts with light to create refined chiaroscuro effects. A distinctive object, capable of bringing character and emotion into the bathroom space.

Siena

Design **ADVAY GUPTA,** 2025

Siena è uno studio poetico sulla morbidezza, una riflessione formale ispirata alle dolci linee delle colline toscane. Interpreta con sensibilità contemporanea il concetto di armonia: un lavabo da appoggio dal segno continuo e fluido, in cui ogni curva nasce naturalmente dalla precedente, dando vita a un volume che unisce leggerezza visiva e solidità materica. La superficie si sviluppa come un'onda che, accarezzata dalla luce, restituisce riflessi sempre diversi, mentre la base assicura stabilità all'insieme, definendo una presenza elegante e rassicurante. Ideale per ambienti bagno dal carattere autentico e senza tempo.

Siena is a poetic study of softness, a formal reflection inspired by the gentle lines of the Tuscan hills. It interprets the concept of harmony with contemporary sensitivity: a countertop washbasin defined by a continuous, fluid line, where each curve flows naturally into the next, creating a volume that combines visual lightness with material solidity. The surface unfolds like a wave that, caressed by light, reveals ever-changing reflections, while the base ensures stability, defining an elegant and reassuring presence. Ideal for bathroom settings with an authentic and timeless character.

App

Design **FLAMINIA TEAM,** 2014

App è una collezione che esprime versatilità e stile. Progettata per adattarsi con naturalezza a ogni contesto, dall'abitazione privata al contract, unisce design essenziale e linee morbide. È la famiglia più completa del brand: vasi, bidet, orinatoi, lavabi e miscelatori dialogano per forma e proporzioni.
Le linee arrotondate, leggere e accoglienti ne definiscono l'identità, mentre i lavabi AppLight introducono un segno più deciso, rigoroso e geometrico.
Ogni elemento è studiato per rispondere a diverse esigenze funzionali e progettuali, grazie a un'ampia gamma di dimensioni e soluzioni. App interpreta lo spazio bagno con eleganza, equilibrio e libertà compositiva.

App is a collection that expresses versatility and style. Designed to adapt naturally to any setting—from private residences to contract environments—it combines essential design with soft lines. It is the brand's most comprehensive family: WCs, bidets, urinals, washbasins, and mixers are unified through form and proportion.
Its rounded, light, and welcoming lines define its identity, while the AppLight washbasins introduce a more defined, rigorous, and geometric aesthetic.
Each element is designed to meet a wide range of functional and design needs, thanks to an extensive selection of sizes and solutions. App interprets the bathroom space with elegance, balance, and compositional freedom.

I vasi sospesi *App* e *MiniApp* sono disponibili anche nella versione go**clean**, il sistema senza brida di Flaminia. L'assenza della brida rende il bacino simile a quello di un bidet, privo di zone nascoste e difficili da raggiungere. Questo consente una pulizia più facile, veloce e accurata, garantendo un maggiore livello di igiene a ogni utilizzo.

*App and MiniApp wall-hung WCs are also available in the go**clean** version, Flaminia's rimless system. The absence of a rim makes the bowl similar to that of a bidet, free from hidden and hard-to-reach areas. This allows for easier, faster, and more thorough cleaning, ensuring a higher level of hygiene with every use.*

AppLight 120

AppLight 120 è il lavabo più grande della collezione, un vero protagonista che unisce dimensioni generose al design lineare della serie. La doppia vasca ne valorizza la funzionalità, rendendolo ideale anche per un utilizzo condiviso. Può essere installato sia in appoggio sia sospeso; in quest'ultima versione può essere completato con eleganti barre portasciugamani, che ne aumentano praticità e coerenza estetica.

AppLight 120 is the largest washbasin in the collection, a true statement piece that combines generous dimensions with the series' linear design. The double basin enhances its functionality, making it ideal for shared use. It can be installed either as a countertop or wall-hung basin; in the latter version, it can be complemented with elegant towel rails, increasing both practicality and aesthetic coherence.

I lavabi *AppLight* con profondità di 51 cm sono disponibili in quattro misure, con piano in ceramica posizionato a destra per ottimizzarne il comfort. Possono essere installati sospesi, da appoggio o su mobile; in quest'ultimo caso il lavabo sostituisce completamente il top. Sono abbinabili alle basi portalavabo con cassetti, sospese o a terra, della collezione *Cubika*, garantendo grande versatilità progettuale. La versione da 105 cm è inoltre compatibile con il mobile *Denver*, per una soluzione che unisce in modo raffinato linguaggi contemporanei e suggestioni industriali.

AppLight washbasins with a depth of 51 cm are available in four sizes, featuring a ceramic surface positioned on the right to optimize comfort. They can be installed wall-hung, countertop, or on a vanity unit; in the latter case, the basin fully replaces the top. They can be paired with Cubika washbasin base units with drawers, either wall-hung or floor-standing, ensuring great design versatility. The 105 cm version is also compatible with the Denver unit, offering a refined solution that combines contemporary language with industrial influences.

App Tub

Design **FLAMINIA TEAM,** 2024

Le vasche freestanding *App Tub* si distinguono per la forma morbida e avvolgente, ispirata alle linee naturali. I profili fluidi creano un equilibrio tra leggerezza e presenza, mentre la *silhouette* lievemente ovale trasmette una sensazione di accoglienza. I bordi si sollevano delicatamente, invitando all'immersione, e la curvatura interna richiama la purezza di una coppa d'acqua. La base ampia garantisce stabilità senza appesantire la composizione, mantenendo la leggerezza visiva dell'oggetto. Essenziali ed eleganti, offrono un'esperienza di comfort e benessere.

App Tub freestanding bathtubs are distinguished by their soft, enveloping shape, inspired by natural lines. The fluid profiles create a balance between lightness and presence, while the gently oval silhouette conveys a sense of comfort. The edges rise delicately, inviting immersion, and the inner curvature recalls the purity of a water-filled bowl. The wide base ensures stability without weighing down the composition, preserving the object's visual lightness. Essential and elegant, they offer an experience of comfort and well-being.

FLAMINIA EXPERIENCE _ CERSAIE 2018

goclean

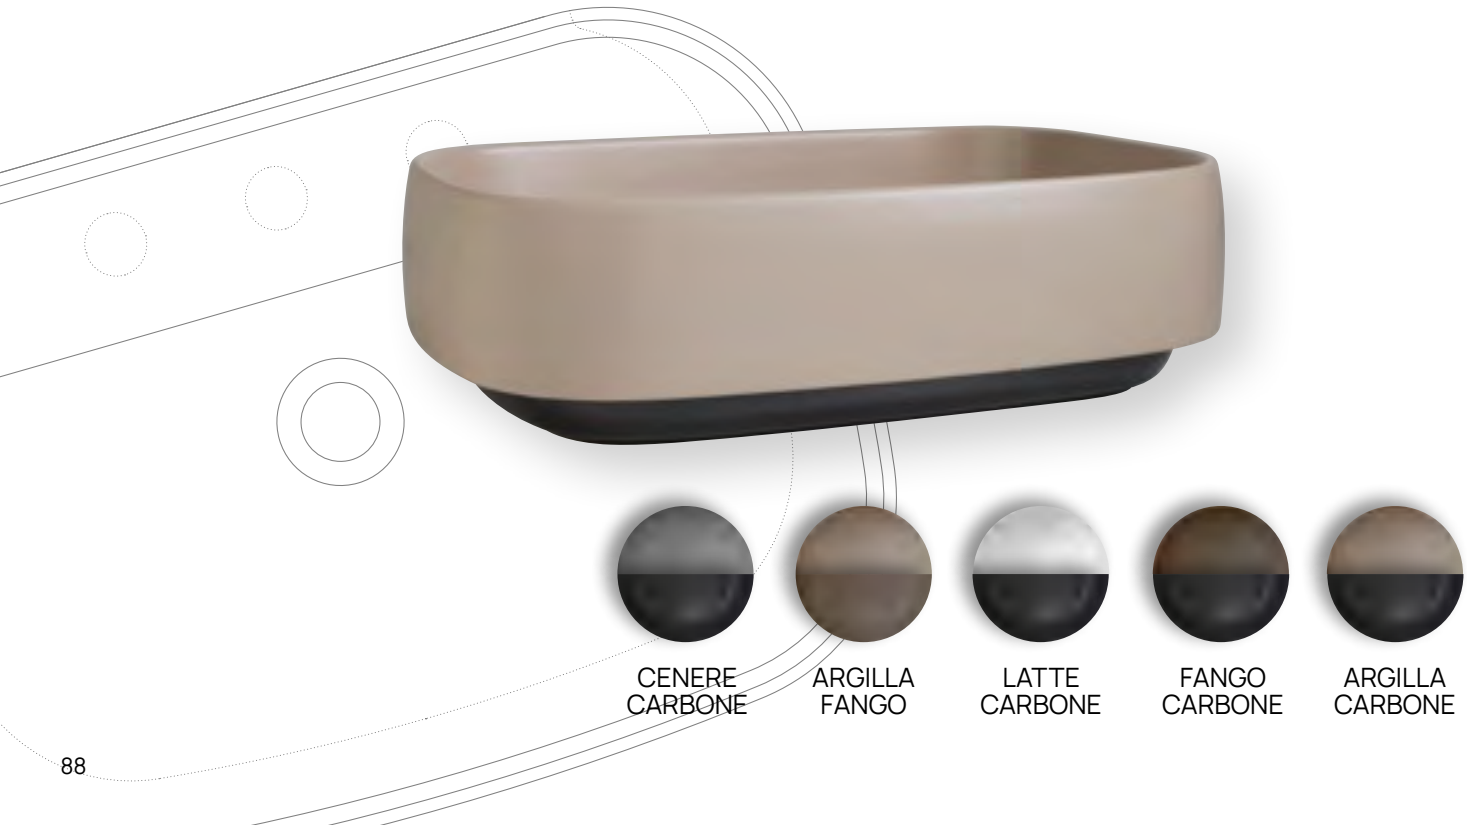

Flag 40 Stripes _ Latte + Carbone
art. FG40ASLC

Flag

Design **ALESSIO PINTO**, 2019

Da un raffinato dialogo di contrasti prende forma la collezione *Flag*, dove la forza dei volumi incontra la leggerezza del dettaglio. Masse importanti si definiscono attraverso segni sottili che ne tracciano il profilo, mentre le geometrie monolitiche si ammorbidiscono in delicati cambi di sezione, smussando gli spigoli e amplificando la percezione tattile. Un'estetica essenziale, ma profondamente evocativa.
Flag esplora il colore come linguaggio progettuale, affidando alle cromie un ruolo centrale nell'esperienza sensoriale. Le superfici dialogano in accostamenti tonali ricercati, dando vita alla finitura *STRIPES*: due nuance diverse abbinate sullo stesso elemento. Ogni combinazione svela un volto inedito, sorprendente e contemporaneo della collezione.

The Flag collection takes shape from a refined dialogue of contrasts, where the strength of volumes meets the lightness of detail. Substantial forms are defined by fine lines that trace their contours, while monolithic geometries soften through subtle changes in section, easing edges and enhancing the tactile perception.
An essential yet deeply evocative aesthetic. Flag explores color as a design language, assigning it a central role in the sensory experience. Surfaces interact through sophisticated tonal pairings, giving rise to the STRIPES finish: two different shades combined within the same element. Each combination reveals a new, surprising, and contemporary expression of the collection.

Il lavabo *Monoflag* è un volume scultoreo, compatto e continuo, ispirato a un monolite levigato dal tempo. La forma slanciata e verticale poggia su una base solida, mentre gli angoli morbidi ne addolciscono la presenza. Il bacino si apre con un bordo sottile, rivelando un interno accogliente in armonioso contrasto con l'esterno. Proporzioni equilibrate che dialogano in maniera elegante con lo spazio.

The Monoflag washbasin is a sculptural, compact, and continuous volume, inspired by a monolith smoothed by time. Its slender, vertical form rests on a solid base, while soft corners soften its presence.
The basin opens with a thin rim, revealing a welcoming interior that harmoniously contrasts with the exterior. Balanced proportions elegantly interact with the space.

Twin Set Slim 42 _ Carbone
art. TW42ACAR

Twin

Design **L.+R. PALOMBA,** 1997

Alla fine degli anni ’90, Ludovica e Roberto Palomba progettano la collezione *Twin*, una gamma completa di lavabi dalla forma cilindrica. La collezione si distingue per versatilità, grazie a diverse misure e tipologie di installazione che permettono composizioni personalizzate. Nel tempo, alcuni modelli sono stati aggiornati dando vita ai *Twin Set Slim* e *Monotwin Slim* dove lo spessore dei bordi è stato ridotto per un’estetica più leggera e la piletta integrata a filo bacino. Un’evoluzione che conferma la capacità del progetto di mantenere la propria identità nel tempo, adattandosi alle nuove esigenze dell’abitare con eleganza e coerenza.

In the late 1990s, Ludovica and Roberto Palomba designed the Twin collection, a complete range of cylindrical washbasins. The collection stands out for its versatility, thanks to a variety of sizes and installation types that allow for customized compositions. Over time, some models have been updated, giving rise to Twin Set Slim and Monotwin Slim, where the rim thickness has been reduced for a lighter aesthetic and the waste is integrated flush with the basin. An evolution that confirms the project’s ability to maintain its identity over time, adapting with elegance and coherence to new living requirements.

Monotwin Slim si distingue per la sua innovativa realizzazione in un unico elemento, a differenza del suo predecessore, il *Twin Column*.
Si tratta di un lavabo da centro stanza, una tipologia assolutamente inedita nel mercato del 1998, anno in cui venne presentato il prodotto. Un design che cattura l'attenzione e definisce l'intero ambiente circostante, diventando il protagonista dello spazio.

Monotwin Slim stands out for its innovative single-piece construction, unlike its predecessor, the Twin Column. It is a freestanding, center-of-the-room washbasin—an entirely new typology when it was introduced in 1998. A design that captures attention and defines the entire surrounding environment, becoming the true focal point of the space.

Play

Design **FLAMINIA TEAM,** 2023

Le linee squadrate e gli angoli smussati della collezione Play evocano un'armonia perfetta, dove forme pure e proporzioni equilibrate si uniscono in un design sobrio e moderno. Ogni pezzo si inserisce con naturalezza in ogni tipo di ambiente bagno, creando una sensazione di freschezza e giocosità, come suggerisce il nome stesso della collezione. I volumi pieni, ma mai pesanti, si integrano con fluidità nello spazio circostante, mentre il bordo superiore dolcemente arrotondato aggiunge un tocco di equilibrio visivo, rendendo l'oggetto ancora più accogliente e confortevole. Play è una collezione completa che celebra la semplicità in cui la purezza delle forme e l'eleganza discreta si fondono trasformando ogni bagno in un rifugio di stile e serenità.

The Play collection's square lines and softened edges evoke a perfect harmony, where pure forms and balanced proportions come together in a clean, modern design. Each piece integrates naturally into any bathroom setting, creating a sense of freshness and playfulness, as suggested by the collection's name. The volumes are solid yet never heavy, blending fluidly into the surrounding space, while the gently rounded upper edge adds a touch of visual balance, making the piece even more inviting and comfortable.
Play is a complete collection that celebrates simplicity, where purity of form and understated elegance come together to transform every bathroom into a haven of style and serenity.

Taki _ Latte
art. TK454ALAT

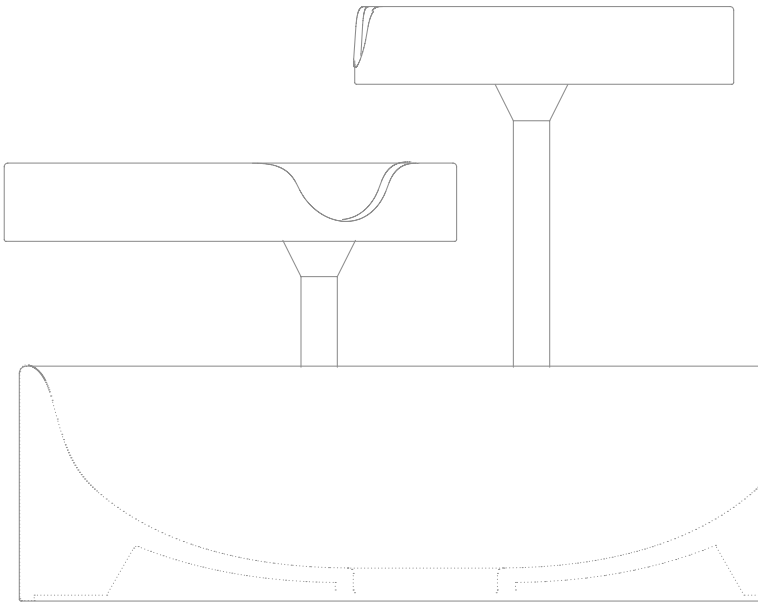

Taki

Design **NENDO,** 2023

Taki è un lavabo inedito, un omaggio poetico al movimento naturale dell'acqua. Il suo nome, che in giapponese significa "cascata", racchiude l'essenza del progetto. «*Taki, come una metafora visiva, evoca il movimento e l'espressione dell'acqua visti in natura, dove questa viene raccolta in uno stagno o in un lago, scorre e viene convogliata nuovamente*» ha spiegato il designer *Oki Sato* dello studio *Nendo*. Composto da tre elementi ceramici di diverse dimensioni, uniti da una leggera struttura in acciaio, il lavabo si sviluppa in un raffinato gioco di equilibrio e movimento. Il lieve sfalsamento delle vasche crea una sequenza armoniosa, quasi fossero piccoli terrazzamenti di una cascata. *Taki* è design che emoziona: un incontro tra natura, forma e poesia.

Taki is an unprecedented washbasin, a poetic tribute to the natural movement of water. Its name, which means "waterfall" in Japanese, encapsulates the essence of the project. "Taki, as a visual metaphor, evokes the movement and expression of water as seen in nature, where it is collected in a pond or lake, flows, and is then channeled again," explained designer Oki Sato of Nendo. Composed of three ceramic elements of different sizes, connected by a light steel structure, the washbasin unfolds in a refined interplay of balance and motion. The slight offset of the basins creates a harmonious sequence, reminiscent of small cascading terraces. Taki is design that moves: a meeting point between nature, form, and poetry.

Box

Design **NENDO,** 2024

Ispirato all'emozionante esperienza dell'"unboxing", questo lavabo cattura l'attimo sospeso dell'apertura di un pacco, né completamente chiuso né completamente aperto, trasformandolo in un gesto progettuale dall'estetica unica. Ogni lavabo è un'opera di eleganza minimalista, disponibile in una raffinata palette di colori e nelle versioni rettangolare e quadrata. La sua forma squadrata e gli spessori sottili evocano una sensazione di leggerezza, mentre le linee nette che si estendono oltre il bordo della scatola si trasformano in due ali delicate, un dettaglio che conferma la maestria produttiva dell'azienda. Questo oggetto, oltre ad arredare, è capace di emozionare, regalando ad ogni bagno un tocco di poesia e modernità.

Inspired by the evocative experience of "unboxing," this washbasin captures the suspended moment of opening a package—neither fully closed nor completely open—transforming it into a design gesture with a distinctive aesthetic. Each basin is an expression of minimalist elegance, available in a refined palette of colors and in both rectangular and square versions. Its geometric form and slim thicknesses convey a sense of lightness, while the clean lines extending beyond the edge of the "box" unfold into two delicate wings—an element that highlights the company's manufacturing expertise. More than a furnishing element, this object is designed to evoke emotion, bringing a touch of poetry and modernity to any bathroom space.

Acquafood

Design **G. CAPPELLINI - R. PALOMBA,** 2023

Attenta alle nuove esigenze dell'abitare, Flaminia porta la sua visione oltre l'ambiente bagno, riportando la ceramica protagonista in cucina. Nasce così *Acquafood*, un lavello a doppia vasca da appoggio che racconta il piacere del gesto quotidiano, trasformandolo in un'esperienza di bellezza.
Le sue forme squadrate, gli spessori importanti e la dimensione generosa gli conferiscono una presenza autentica, familiare, capace di dialogare con lo spazio e di diventarne il cuore pulsante.
Con *Acquafood*, la ceramica ritrova la sua voce più vera: materica, sincera, protagonista di un modo di vivere che unisce memoria, design e calore domestico.

Attentive to evolving living needs, Flaminia extends its vision beyond the bathroom, bringing ceramic back to the forefront in the kitchen. This is how Acquafood was created—a countertop double-basin sink that celebrates the pleasure of everyday gestures, transforming them into an experience of beauty.
Its square forms, substantial thicknesses, and generous dimensions give it an authentic, familiar presence, capable of engaging with the space and becoming its beating heart.
With Acquafood, ceramic rediscovers its most genuine voice: material, sincere, and central to a way of living that brings together memory, design, and the warmth of home.

Spire

Design **ELENA SALMISTRARO,** 2021

Spire è un perfetto incontro tra natura e design: una collezione di lavabi da appoggio che ricorda la forma di una conchiglia modellata dal mare e le sue spire, da cui prende il nome. Le linee fluide e la forma organica valorizzano le potenzialità della materia prima. La forma plastica enfatizza la bellezza della ceramica e l'ampio bordo, a dimensione variabile, caratterizza il progetto di cui muta la percezione a seconda del punto di vista. Ogni dettaglio racconta un'attenta ricerca estetica evocativa del mondo naturale. Nella versione *Spire+*, il rilievo ceramico aggiunge un ulteriore livello di espressività: un segno distintivo che valorizza la forma e arricchisce il design, dando vita a un vero e proprio dialogo tra la sensibilità della designer e l'abilità produttiva dell'azienda.

Spire is a perfect meeting point between nature and design: a collection of countertop washbasins inspired by the form of a seashell shaped by the sea and its spirals, from which it takes its name. Fluid lines and an organic shape enhance the potential of the raw material. The sculptural form emphasizes the beauty of ceramic, while the wide rim, with its varying dimensions, defines the design, changing its perception depending on the viewpoint. Every detail reflects a careful aesthetic exploration inspired by the natural world. In the Spire+ version, the ceramic relief adds a further layer of expressiveness: a distinctive feature that enhances the form and enriches the design, creating a true dialogue between the designer's sensitivity and the company's manufacturing expertise.

Bloom

Design **ANGELETTI-RUZZA DESIGN,** 2016

Bloom è un elegante lavabo a consolle disponibile in quattro dimensioni. Il design essenziale si distingue per linee nette, angoli definiti e una forma geometrica minimalista che esprime purezza formale e funzionalità. L'ampio piano, sottile e leggero, si integra con un bacino morbido e tondeggiante, creando un raffinato contrasto tra geometria e fluidità. La composizione simmetrica trasmette ordine ed equilibrio, mentre il bordo rettangolare accentua il carattere contemporaneo. L'estetica del lavabo è studiata per ridurre il caos visivo, offrendo un'esperienza estetica che invita alla calma e alla riflessione. Ogni dettaglio è studiato per ridurre il superfluo e ottimizzare lo spazio, offrendo un comodo piano d'appoggio. *Bloom* interpreta il bagno come luogo di benessere, unendo praticità e design.

Bloom is an elegant console washbasin available in four sizes. Its essential design is defined by clean lines, sharp angles, and a minimalist geometric form that expresses both formal purity and functionality. The wide, slim, and lightweight surface integrates with a soft, rounded basin, creating a refined contrast between geometry and fluidity. The symmetrical composition conveys order and balance, while the rectangular edge enhances its contemporary character. The washbasin's aesthetic is designed to reduce visual clutter, offering an experience that invites calm and reflection. Every detail is conceived to eliminate the superfluous and optimize space, providing a practical surface. Bloom interprets the bathroom as a place of well-being, combining practicality and design.

GERMAN DESIGN AWARD WINNER 2023

Astra

Design **GIULIO CAPPELLINI**, 2022

La linea *Astra*, composta da sanitari a terra e sospesi, è il perfetto incontro tra cultura di progetto e competenza produttiva. La forma monolitica dona forte presenza a questi oggetti, addolciti da smussature appena accennate, ma di notevole forza espressiva. Le forme morbide e arrotondate, con superfici lisce che si susseguono senza interruzioni, regalano un'esperienza visiva armoniosa e fluida. La cura dei dettagli è evidente in ogni aspetto: le proporzioni, gli spessori, le leggere smussature sono studiati per conferire equilibrio alla figura. Il risultato è una forma che, pur nella sua solidità, si fa accogliente e raffinata.

The Astra line, comprising floor-standing and wall-hung sanitary ware, represents the perfect meeting point between design culture and manufacturing expertise. Its monolithic form gives these pieces a strong presence, softened by subtle chamfers that carry notable expressive strength. Soft, rounded shapes with smooth, uninterrupted surfaces create a harmonious and fluid visual experience. Attention to detail is evident in every aspect: proportions, thicknesses, and gentle bevels are carefully studied to bring balance to the overall form. The result is a design that, while solid, feels welcoming and refined.

Niagara

Design **FLAMINIA DESIGN TEAM,** 2003

Niagara ridefinisce le soluzioni per il bagno con una cassetta di scarico in ceramica, progettata per vasi back to wall come alternativa al monoblocco tradizionale. Compatta e lineare, si integra con eleganza in ogni ambiente. Il suo punto di forza è la possibilità di rinnovare il bagno senza interventi invasivi, adattandosi facilmente a impianti esistenti. Per il vaso, il carter in ceramica nasconde un sistema di scarico a doppio flusso, con prestazioni paragonabili alle cassette da incasso; nella versione bidet, integra un pratico vano portaoggetti. Una soluzione che unisce estetica, funzionalità e semplicità d'installazione.

Niagara redefines bathroom solutions with a ceramic cistern designed for back-to-wall WCs, offering an alternative to the traditional close-coupled system. Compact and linear, it integrates elegantly into any setting. Its key strength lies in the ability to renovate the bathroom without invasive work, adapting easily to existing plumbing systems. For the WC, the ceramic casing conceals a dual-flush system with performance comparable to concealed cisterns; in the bidet version, it incorporates a practical storage compartment. A solution that combines aesthetics, functionality, and ease of installation.

Niagara WC

Il carter in ceramica nasconde un sistema di scarico a doppio flusso azionabile dal pulsante posto nella parte superiore e che riproduce le stesse prestazioni della cassetta incasso.

The ceramic case houses a dual flushing system activated by a pushbutton positioned on the top reproducing the same performance as a concealed tank.

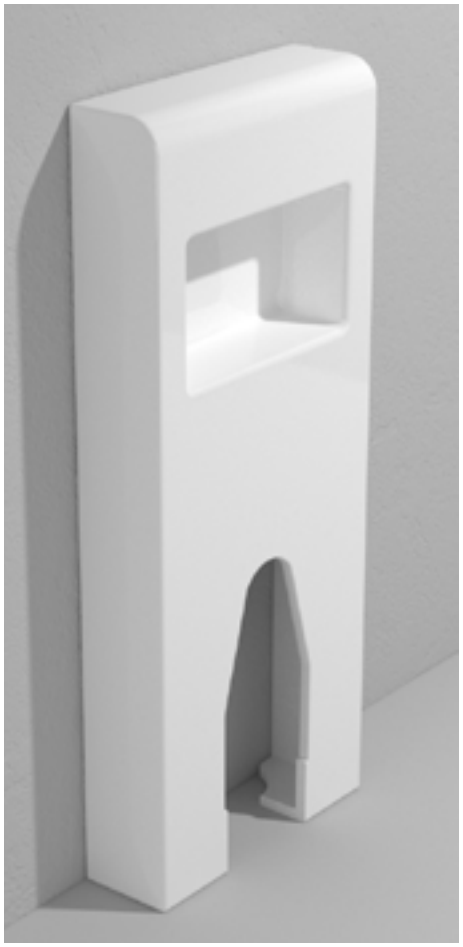

Inoltre, consente l'installazione di un vaso back-to-wall su un impianto di scarico a pavimento già esistente, adattandosi a scarichi con distanza da 10 cm fino a 21/24 cm (a seconda del modello di WC scelto). Abbinando la connessione LKR33, è possibile coprire installazioni con distanza superiore ai 40 cm.

Additionally, it allows the installation of a back-to-wall toilet on an existing floor drain system, adapting to drain distances ranging from 10 cm up to 21/24 cm (depending on the WC model selected). By combining it with the LKR33 connection, installations with distances exceeding 40 cm can also be accommodated.

Niagara bidet

Lo stesso principio si applica anche al bidet. Nei vecchi impianti idraulici era infatti consuetudine predisporre gli attacchi dell'acqua calda e fredda a una distanza elevata tra loro, rendendo oggi difficile l'installazione di un bidet filo muro in sostituzione del modello esistente.

The same principle also applies to the bidet. In older plumbing systems, it was common practice to position the hot and cold water connections far apart, which today makes it difficult to install a back-to-wall bidet in place of the existing model.

Il complemento ceramico, nascondendo i collegamenti idraulici, consente di ridurre al minimo gli interventi sia sull'impianto sia sulle opere murarie.

The ceramic accessory conceals the plumbing connections, thereby minimizing the need for both plumbing modifications and masonry work.

Miniwash, Fly

Design **GIULIO CAPPELLINI,** 2005

La collezione si distingue per la sua sobria eleganza e il suo design essenziale, che riflette un perfetto equilibrio tra funzionalità e qualità estetica. Le forme squadrate, con angoli delicatamente arrotondati, e le linee nette e pure evidenziano una cura impeccabile nei dettagli, creando un oggetto che si inserisce con naturalezza in contesti minimal e moderni. La geometria semplice ed essenziale esprime un'eleganza semplice e versatile.

The collection stands out for its understated elegance and essential design, reflecting a perfect balance between functionality and aesthetic quality. Square forms with gently rounded corners, combined with clean, pure lines, highlight meticulous attention to detail, creating an object that integrates naturally into minimalist and modern settings. Its simple, essential geometry expresses a refined and versatile elegance

I lavabi *Miniwash* sottopiano rappresentano la scelta perfetta per chi desidera un'estetica lineare e raffinata. Installati al di sotto del piano — realizzabile in diversi materiali — offrono una praticità impeccabile anche dal punto di vista della pulizia. Una proposta ideale anche per bagni di piccole dimensioni, dove ogni centimetro conta.
Smaltati anche esternamente, questi lavabi possono essere installati anche a vista, come nel caso dell'elegante abbinamento con i piani *Fly*, in cristallo extra light bianco o nero, realizzati su misura per esaltare la purezza delle forme e la leggerezza del design.

Miniwash undermount washbasins are the perfect choice for those seeking a clean and refined aesthetic. Installed beneath the countertop—available in a variety of materials—they offer outstanding practicality, particularly in terms of ease of cleaning. An ideal solution also for smaller bathrooms, where every centimeter counts.
Glazed externally as well, these washbasins can also be installed in a visible configuration, as in the elegant combination with Fly tops in extra-light glass, available in white or black and custom-made to enhance the purity of form and the lightness of the design.

Monowash

Design **GIULIO CAPPELLINI**, 2005

Monowash è un lavabo a colonna realizzato in un unico blocco di ceramica, sintesi di purezza formale e cura progettuale. La vasca, quadrata con angoli arrotondati, si integra con la colonna leggermente rastremata verso il basso, creando un equilibrio armonioso tra rigore e morbidezza. Lo spessore ridotto al minimo esalta le potenzialità espressive della ceramica, valorizzandone leggerezza e i dettagli della geometria.

Monowash is a pedestal washbasin crafted from a single block of ceramic, a synthesis of formal purity and design precision. The square basin with rounded corners integrates seamlessly with the column, which gently tapers towards the base, creating a harmonious balance between rigor and softness. The reduced thickness enhances the expressive potential of the ceramic, highlighting its lightness and the precision of its geometry.

Nuda

Design **L.+R. PALOMBA,** 2002

NudaSlim 60 _ Argilla
art. ND60AARG

Nuda è una collezione di lavabi che nasce da una forma essenziale, pura e sensuale, capace di interpretare un'eleganza autenticamente femminile. Le geometrie morbide e continue superano la rigidità delle linee tradizionali, trasformandosi in curve fluide che dialogano con la luce e con lo spazio. I bacini ampi e armoniosi accompagnano con naturalezza i gesti quotidiani, diventando protagonisti dell'ambiente bagno. Disponibili in diverse dimensioni, con piano rubinetteria o foro centrale, i lavabi *Nuda* possono essere installati sospesi o in appoggio. La collezione si completa con *NudaSlim*, caratterizzata da bordi sottili e proporzioni compatte, e con le consolle *NudaFlat*, che aggiungono leggerezza ed equilibrio all'intera linea.

Nuda is a collection of washbasins born from an essential, pure, and sensual form, capable of expressing an authentically feminine elegance. Its soft, continuous geometries transcend the rigidity of traditional lines, transforming into fluid curves that interact with light and space. The wide, harmonious basins naturally accompany everyday gestures, becoming the focal point of the bathroom environment. Available in different sizes, with either an integrated tap ledge or a central tap hole, Nuda washbasins can be installed wall-hung or countertop-mounted. The collection is completed by NudaSlim, distinguished by its thin edges and compact proportions, and by the NudaFlat consoles, which add lightness and balance to the entire line.

NudaFlat

Con *NudaFlat*, la collezione si arricchisce di due lavabi a consolle in cui il piano in ceramica diventa un pratico ed elegante piano d'appoggio, ampliando la funzionalità dello spazio bagno. La ricerca progettuale si concentra sull'equilibrio delle proporzioni: le linee morbide e avvolgenti del bacino si integrano con la geometria rigorosa del piano,

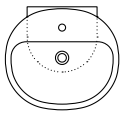

dando vita a elementi leggeri, funzionali ed equilibrati. La superficie continua scorre senza interruzioni, accogliendo la luce e valorizzando la matericità della ceramica. *NudaFlat* interpreta così il lavabo come un elemento architettonico capace di coniugare estetica e praticità, offrendo una soluzione armoniosa per l'organizzazione quotidiana del bagno.

With NudaFlat, the collection is enriched by two console washbasins in which the ceramic surface becomes a practical and elegant countertop, enhancing the functionality of the bathroom space. The design research focuses on the balance of proportions: the soft, enveloping lines of the basin blend with the rigorous geometry of the surface, creating elements that are light, essential, and sophisticated. The continuous surface flows seamlessly, capturing the light and highlighting the material quality of the ceramic. NudaFlat thus interprets the washbasin as an architectural element capable of combining aesthetics and practicality, offering a harmonious solution for the everyday organization of the bathroom.

Monò

Design **PATRICK NORGUET**, 2007

La collezione *Monò* interpreta una contemporaneità dal carattere classico, capace di inserirsi con naturalezza in contesti architettonici diversi. I lavabi, disponibili in quattro dimensioni, e i sanitari nelle versioni sospesa e back to wall, si distinguono per volumi pieni, spessori importanti e linee morbide e arrotondate, che conferiscono alla collezione una presenza solida ed equilibrata. Le superfici pulite ed eleganti valorizzano la purezza della ceramica e riflettono la luce con delicatezza, esaltandone la matericità. Con il suo design essenziale ma sofisticato, *Monò* dà vita ad ambienti bagno armoniosi, contemporanei e ricercati.

The Monò collection expresses a contemporary aesthetic with a classic character, designed to blend naturally into a variety of architectural settings. The washbasins, available in four sizes, together with the sanitaryware in wall-hung and back-to-wall versions, are distinguished by full volumes, generous thicknesses, and soft, rounded lines that give the collection a solid and balanced presence. The clean and elegant surfaces enhance the purity of the ceramic and reflect light delicately, emphasizing its material quality. With its essential yet sophisticated design, Monò creates bathroom environments that are harmonious, contemporary, and refined.

Le proporzioni armoniose della collezione sono una costante anche nei lavabi disponibili in quattro dimensioni con piano rubinetteria e installabili sospesi o da appoggio. Il bacino, senza troppopieno, unisce linee morbide e angoli arrotondati, regalando leggerezza visiva e continuità, mentre il bordo sottile valorizza comfort e funzionalità.

The harmonious proportions of the collection are also reflected in the washbasins, available in four sizes with integrated tap ledge and suitable for wall-hung or countertop installation. The basin, without overflow, combines soft lines and rounded corners, creating a sense of visual lightness and continuity, while the slim edge enhances both comfort and functionality.

Fluo 60 _ Latte
art. FU60LLAT

Fluo

Design **NICCOLÒ ADOLINI,** 2021

Eccellenza manifatturiera, ricerca sul design, sperimentazione su materiali e colori si fondono nel progetto *Fluo*. Una collezione che interpreta la ceramica con un linguaggio nuovo, fluido, sensuale. Le sue linee organiche e le superfici morbide che sembrano modellate dall'acqua, evocano un immaginario poetico e naturale. Le forme, morbide e prive di spigoli, esaltano la purezza della ceramica e ne svelano la luminosità. Una linea continua, leggera ma decisa, delinea volumi generosi che si assottigliano in profili raffinati, ridotti all'essenza. La linea *Fluo*, con i lavabi da appoggio e i sanitari sospesi, è un progetto che trasforma la ceramica in un'esperienza di eleganza fluida e contemporanea.

Manufacturing excellence, design research, and experimentation with materials and colors come together in the Fluo project. A collection that reinterprets ceramics through a new, fluid, and sensual language. Its organic lines and soft surfaces, seemingly shaped by water, evoke a poetic and natural imagery. Soft, seamless forms free of sharp edges enhance the purity of the ceramic and reveal its luminosity. A continuous line, light yet defined, shapes generous volumes that taper into refined profiles reduced to their essence. The Fluo collection, featuring countertop basins and wall-hung sanitary ware, is a project that transforms ceramics into an experience of fluid and contemporary elegance.

Bonola

Design **JASPER MORRISON,** 2013

Bonola è l'essenza del design minimalista, dove la purezza delle forme e l'eleganza moderna si fondono in un'unica, armoniosa composizione. Un equilibrio di curve morbide e superfici nette che si alternano con grazia, creando una sensazione di leggerezza e fluidità. I bordi arrotondati, morbidi e accoglienti, invitano al contatto.
Ogni dettaglio, nella sua apparente semplicità, è studiato per esprimere un'eleganza discreta e sofisticata. *Bonola* è un'esperienza sensoriale che trasforma l'ambiente in uno spazio raffinato, dove la semplicità si fa eleganza e bellezza che dialoga con ogni tipologia di ambiente.

Bonola is the essence of minimalist design, where purity of form and modern elegance merge into a single harmonious composition. A balance of soft curves and clean surfaces alternates gracefully, creating a sense of lightness and fluidity. The rounded edges, soft and welcoming, invite touch. Every detail, in its apparent simplicity, is designed to express a discreet and sophisticated elegance.
Bonola is a sensory experience that transforms the space into a refined environment, where simplicity becomes elegance and beauty engages effortlessly with every type of interior.

Bonola 46 _ Carbone
art. BN46ACAR

La versione del lavabo *Bonola* su colonna è l'icona della collezione. Un segno di assoluta precisione definisce la linea di un lavabo dal profilo fluido e dal bacino circolare, delimitato da un bordo particolarmente sottile mentre la colonna rastremata si raccorda armoniosamente al catino, conferendo all'insieme una presenza architettonica di grande leggerezza percettiva.

The Bonola pedestal basin version is the icon of the collection. A line of absolute precision defines a basin with a fluid profile and a circular bowl, outlined by an exceptionally thin rim, while the tapered pedestal blends harmoniously with the basin, giving the whole composition an architectural presence of remarkable visual lightness.

Roll 44_ Cenere
art. RL44SCEN

L'immagine leggera e inattesa di un foglio di carta arrotolato su sé stesso ispira la collezione di lavabi *Roll*, espressione di una creatività eclettica e originale. L'uso consapevole della forma, sempre al servizio della funzionalità, dà vita a una collezione sorprendente, capace di coniugare ricerca estetica e utilizzo quotidiano in un equilibrio proporzionato e originale. La linea comprende quattro lavabi — due da appoggio e due da semincasso, nelle versioni tonda e ovale — oltre alla versione freestanding *Monoroll*, offrendo soluzioni versatili per interpretare lo spazio bagno con libertà progettuale, carattere e una forte identità formale.

The light and unexpected image of a sheet of paper rolled onto itself inspires the Roll basin collection, an expression of eclectic and original creativity. The conscious use of form, always at the service of functionality, gives life to a surprising collection capable of combining aesthetic research and everyday use in a harmonious and original balance. The line includes four basins — two countertop and two semi-recessed models, available in round and oval versions — together with the freestanding Monoroll version, offering versatile solutions to interpret the bathroom space with design freedom, character, and a strong formal identity.

Monoroll

Monoroll si presenta come una presenza scultorea, essenziale e al tempo stesso sorprendente. La forma cilindrica, pura e verticale, è interrotta da un taglio morbido e continuo che sembra avvolgere il volume su sé stesso, come un foglio che si piega con naturalezza. Questo gesto formale rompe la simmetria e dona movimento all'insieme, trasformando il lavabo in un oggetto da ammirare oltre che da utilizzare.

Monoroll presents itself as a sculptural presence, essential yet unexpected. Its pure, vertical cylindrical form is interrupted by a soft and continuous cut that seems to wrap around the volume itself, like a sheet naturally folding onto itself. This formal gesture breaks the symmetry and brings movement to the composition, transforming the basin into an object to be admired as much as used.

Madre

Design **SILVANA ANGELETTI – DANIELE RUZZA,** 2018

Madre nasce come un atto creativo che reinterpreta la storia del design italiano per ridefinire l'abitare contemporaneo. I principi dell'architettura razionalista, memoria collettiva del buon progetto, incontrano il sapere manifatturiero dell'azienda, dando vita a una collezione in cui eleganza, proporzione e funzionalità convivono in perfetto equilibrio. La contemporaneità dialoga con il linguaggio classico, generando un segno progettuale capace di unire memoria e innovazione. Passato e presente si intrecciano in una sintesi di stile, dove rigore formale e sensibilità contemporanea dialogano definendo una nuova idea di eleganza.

Madre was born as a creative act that reinterprets the history of Italian design to redefine contemporary living. The principles of Rationalist architecture — a collective memory of good design — meet the company's manufacturing expertise, giving life to a collection where elegance, proportion, and functionality coexist in perfect balance. Contemporary design engages in dialogue with classical language, creating a design identity capable of uniting memory and innovation. Past and present intertwine in a synthesis of style, where formal rigor and contemporary sensitivity interact to define a new idea of elegance.

Efi

Design **FLAMINIA TEAM,** 1990

Efi _ Bianco
art. EF118 + 23/C
art. EF218

Efi è una collezione che richiama l'eleganza raffinata delle storiche produzioni inglesi, reinterpretandole attraverso il linguaggio progettuale di Flaminia. Un classico senza tempo, pensato per ambienti accoglienti dal carattere retrò. La linea comprende vaso e bidet in diverse versioni — a terra distanziati da parete, sospesi, back to wall e vaso monoblocco — oltre a due lavabi disponibili in versione sospesa, su colonna o su struttura metallica. La sua estetica raffinata e distintiva rende *Efi* una collezione sorprendentemente versatile: accostata a materiali e arredi contemporanei, interpreta con naturalezza uno stile trasversale, dove richiami classici e sensibilità moderna convivono in un raffinato equilibrio tra minimalismo e suggestioni neo-barocche.

Efi is a collection that recalls the refined elegance of historic English bathroom design, reinterpreted through Flaminia's contemporary design language. A timeless classic conceived for welcoming interiors with a retro character. The collection includes WC and bidet models in different versions — floor-mounted set away from the wall, wall-hung, back-to-wall, and close-coupled WC — as well as two washbasins available in wall-hung versions, with pedestal, or mounted on a metal frame. Its refined and distinctive aesthetic makes Efi a surprisingly versatile collection: when paired with contemporary materials and furnishings, it naturally interprets a cross-disciplinary style in which classical references and modern sensibility coexist in a sophisticated balance between minimalism and neo-baroque influences.

DESIGN PLUS

Io

Design **A. DURINGER-S. ROSINI,** 2004

La collezione *Io* incarna un'eleganza minimale e una funzionalità senza compromessi, dove il razionalismo geometrico dialoga con un minimalismo morbido e misurato. Volumi marcati e curve fluide si fondono dando vita a una collezione originale, dal profilo ellittico e avvolgente. Un design quasi organico, che invita al contatto e alla semplicità, trasformando ogni elemento in un'esperienza di sobria eleganza quotidiana.

The Io collection embodies minimal elegance and uncompromising functionality, where geometric rationalism engages in dialogue with a soft and measured minimalism. Defined volumes and fluid curves merge to create an original collection with an enveloping elliptical profile. An almost organic design that invites touch and simplicity, transforming each element into an experience of understated everyday elegance.

La linea *Nile* nasce dalla ricerca dell'oggetto essenziale, dove la forma lascia spazio alla purezza del progetto e alla funzionalità quotidiana. Una famiglia di elementi sobri ed eleganti, pensati per integrarsi con naturalezza in ambienti diversi grazie a un linguaggio formale equilibrato ed essenziale. Sanitari sospesi, definiscono una collezione dalle linee geometriche e decise, addolcite da angoli smussati e bordi arrotondati che conferiscono armonia e leggerezza al corpo ceramico. *Nile* interpreta una modernità fatta di proporzioni essenziali, comfort ed eleganza discreta.

The Nile collection was born from the pursuit of the essential object, where form gives way to the purity of design and everyday functionality. A family of understated and elegant elements, conceived to integrate naturally into different environments through a balanced and essential formal language. The wall-hung sanitaryware defines a collection characterized by strong geometric lines, softened by beveled corners and rounded edges that bring harmony and lightness to the ceramic body. Nile expresses a modernity shaped by essential proportions, comfort, and understated elegance.

Saltodacqua

Design **HSIANG-HENG HSIAO,** 2015

Ispirato ai bagni tradizionali giapponesi e alla ritualità della cerimonia del tè, il lavabo *Saltodacqua* rende omaggio ai gesti lenti e armoniosi della cultura del Sol Levante. Il flusso dell'acqua richiama la naturale continuità di un ruscello e la delicatezza con cui il tè viene versato nella tazza durante la cerimonia: un movimento fluido e controllato che trasforma il gesto quotidiano dell'igiene personale in un momento di calma, equilibrio e benessere.

Inspired by traditional Japanese baths and the rituality of the tea ceremony, the Saltodacqua washbasin pays tribute to the slow and harmonious gestures of the culture of the Rising Sun. The flow of water recalls the natural continuity of a stream and the delicacy with which tea is poured into the cup during the ceremony: a fluid and controlled movement that transforms the everyday act of personal care into a moment of calm, balance, and well-being.

Acquagrande

Design **G. CAPPELLINI - R. PALOMBA,** 1997

L'impatto fortemente architettonico contraddistingue il lavabo *Acquagrande* fin dalla sua prima presentazione alla mostra culturale *Abitare il Tempo* nel 1997. Le grandi dimensioni e le linee minimali lo hanno reso in breve tempo un'icona del bagno contemporaneo e del rigore geometrico. I lavabi della collezione appaiono come blocchi scolpiti con precisione: una geometria decisa ma mai rigida, dove superfici continue e bordi importanti creano un equilibrio sottile tra forza e delicatezza. La vasca, ampia e comoda, definisce un'eleganza essenziale e contemporanea, solida e armonica.

The strongly architectural impact has distinguished the Acquagrande washbasin since its first presentation at the Abitare il Tempo cultural exhibition in 1997. Its generous dimensions and minimalist lines quickly made it an icon of the contemporary bathroom and of geometric rigor. The washbasins in the collection appear as precisely sculpted blocks: a bold geometry that is never rigid, where continuous surfaces and substantial edges create a subtle balance between strength and delicacy. The spacious and comfortable basin defines an essential and contemporary elegance, both solid and harmonious.

Filo

Design **ALESSIO PINTO**, 2019

Il nome *Filo* nasce dall'idea stessa che lo ispira: un sottile filo d'acciaio che si snoda in una linea continua, disegnando una forma essenziale e precisa. Ogni curva, ogni svolta, segue un percorso ben definito fino a dar vita a strutture eleganti e funzionali.
Filo è una collezione di basi portalavabo e scaffali, realizzati in finitura Nero Matt, arricchiti da piani in gres porcellanato coordinati, che conferiscono un tocco di sobria raffinatezza. Le basi portalavabo, disponibili in due misure, sono dotate lateralmente di barre portasciugamani, con un'ulteriore versione da 75 cm che si completa con un cassetto in legno, dello stesso colore, per una soluzione pratica ed elegante.

The name Filo originates from the very idea that inspires it: a thin steel wire unfolding in a continuous line, tracing an essential and precise form. Every curve and every turn follows a clearly defined path, giving life to elegant and functional structures.
Filo is a collection of washbasin frames and shelves, finished in Nero Matt and enhanced with coordinated porcelain stoneware tops that add a touch of understated refinement. The washbasin frames, available in two sizes, feature side towel rails, while the 75 cm version can also be completed with a wooden drawer, also in Nero Matt, for a practical and elegant solution.

Cubika

Design **FLAMINIA TEAM,** 2022

Cubika è una collezione di mobili contenitori modulari pensata per creare soluzioni compositive versatili e funzionali, capaci di interpretare il carattere dell'ambiente bagno. Un sistema completo di elementi – moduli sospesi o a terra, cassetti, ante, pensili e armadi – progettati per dialogare tra loro e dare vita a configurazioni su misura.
Elemento distintivo della collezione è il telaio metallico che incornicia i frontali, valorizzandone l'estetica, trasformandosi al tempo stesso in una pratica presa a gola.
Cubika si esprime attraverso un'ampia varietà di finiture e materiali: tre essenze legno, otto colori laccati opachi e due superfici in grès consentono di creare atmosfere diverse, dal classico essenziale ed elegante al nordico caldo e naturale, fino a uno stile più contemporaneo, dove colore e superfici omogenee esaltano la purezza geometrica delle forme.

Cubika is a collection of modular storage furniture designed to create versatile and customizable compositions, capable of interpreting the character of the bathroom space. A complete system of elements — wall-hung or floor-standing modules, drawers, doors, wall units, and cabinets — conceived to interact seamlessly and create tailored configurations. The collection's distinctive feature is the metal frame that outlines the fronts, enhancing their aesthetic while also functioning as a practical recessed handle. Cubika is expressed through a wide range of finishes and materials: three wood essences, eight matt lacquered colors, and two stoneware surfaces make it possible to create different atmospheres, from a sober and elegant classic style to a warm and natural Nordic mood, up to a more contemporary language where color and uniform surfaces emphasize the geometric purity of the forms.

Le finiture / Finishes

Legno laccato opaco / Matt lacquered wood

Legno / Wood

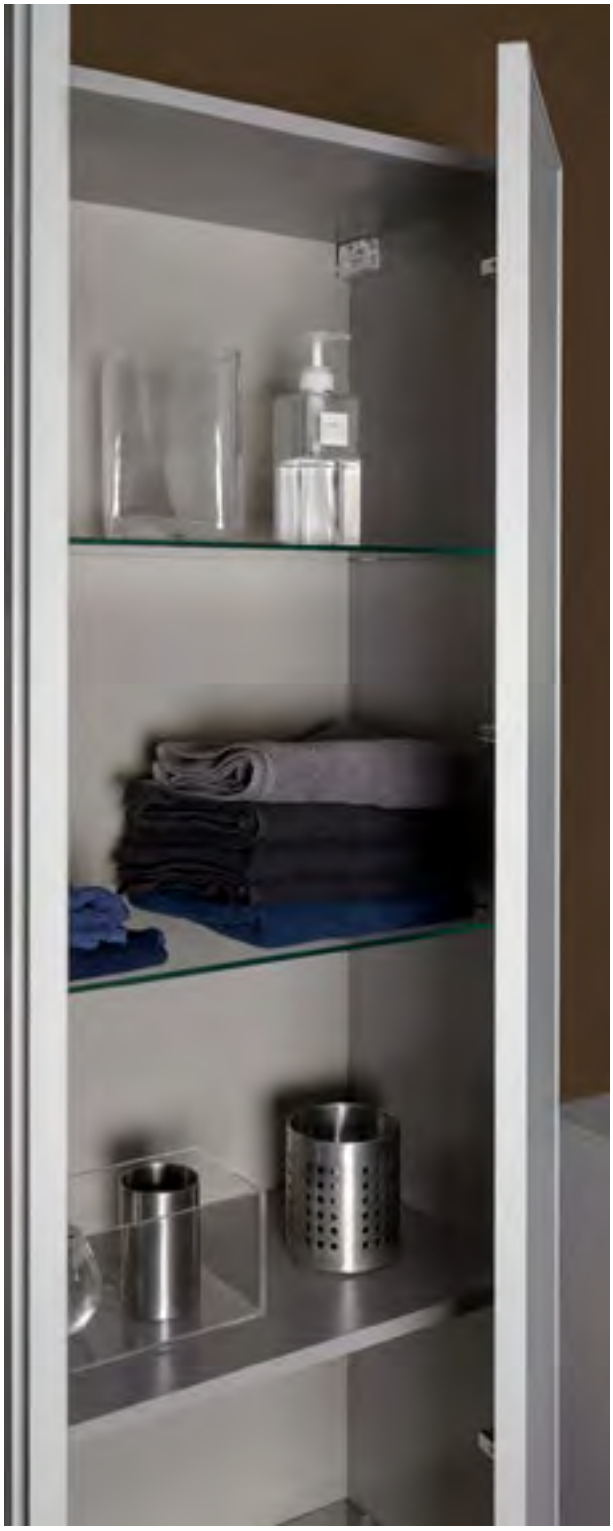

Gres

I mobili *Cubika* sono realizzati in legno, mentre il telaio dei frontali di cassetti e ante è in metallo verniciato. La particolare conformazione del telaio integra una pratica presa a gola, coniugando funzionalità ed eleganza formale.
I pannelli frontali, inseriti all'interno della struttura metallica che caratterizza la collezione, sono disponibili in legno laccato o in essenza legno liscia o lavorata, oppure in grès porcellanato.
I top hanno uno spessore di 12 mm; le versioni in grès possono essere abbinate a tutte le altre finiture disponibili. I modelli a pavimento sono dotati di zoccolo alto 3,5 cm, nella stessa finitura del mobile e completo di piedini regolabili.
All'interno dei cassetti, le strutture sono in finitura antracite opaca e corredate di guide a estrazione totale con sistema Blumotion. Nelle basi portalavabo, il primo cassetto è sagomato per consentire l'alloggiamento degli scarichi.
I mobili con ante, inclusi pensili e armadi, sono dotati di ripiani interni in vetro da 6 mm e di cerniere con chiusura rallentata.

Cubika furniture is made of wood, while the frame surrounding the drawer and door fronts is crafted from painted metal. Its distinctive profile incorporates a practical recessed handle, combining functionality with formal elegance.
The front panels, set within the metal structure that characterizes the collection, are available in lacquered wood, smooth or textured wood veneer, or stoneware for a more tactile and contemporary effect.
The tops have a thickness of 12 mm; the stoneware versions can be combined with all the other available finishes. Floor-standing models feature a 3.5 cm plinth in the same finish as the cabinet and equipped with adjustable feet.
Inside the drawers, the structures are finished in matt anthracite and fitted with full-extension runners with Blumotion soft-close system. In the washbasin units, the top drawer is shaped to accommodate the plumbing connections.
Cabinets with doors, including wall units and tall cabinets, are equipped with 6 mm internal glass shelves and soft-close hinges.

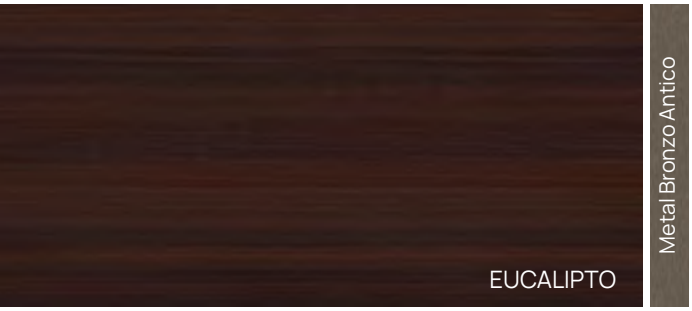

Legno / Wood

› **liscio**/smooth

› **lavorato**/textured

La texture del legno, unica nelle venature e nelle sfumature cromatiche, si integra con naturalezza in ogni contesto d'arredo, dal classico al contemporaneo. I mobili in essenza legno trasmettono calore, accoglienza e un effetto materico che valorizza l'ambiente bagno.

La lavorazione "Greca", caratterizzata da un raffinato effetto millerighe a rilievo, arricchisce le superfici con una texture piacevole sia alla vista che al tatto, trasformando ante e cassetti in veri elementi decorativi. Il profilo metallico in Bronzo Antico impreziosisce e definisce il design di questo prodotto. Nelle versioni con questa finitura, la scocca del mobile è realizzata in essenza liscia, mentre la lavorazione "Greca" è applicata esclusivamente ai pannelli frontali di ante e cassetti.

The wood texture, unique in its grain and color nuances, integrates naturally into any interior setting, from classic to contemporary. Wood veneer furniture conveys warmth, comfort, and a tactile quality that enhances the bathroom environment.

The "Greca" finish, distinguished by its refined raised striped effect, enriches the surfaces with a texture that is pleasing both visually and to the touch, transforming doors and drawers into true decorative elements. The Antique Bronze metal profile enhances and defines the design of the collection.

In versions featuring this finish, the cabinet structure is made in smooth wood veneer, while the "Greca" texture is applied exclusively to the front panels of doors and drawers.

Il legno laccato opaco è la scelta ideale per chi desidera coniugare eleganza contemporanea e praticità d'uso. La superficie, piacevole al tatto e capace di attenuare i riflessi della luce, dona all'arredo bagno un aspetto uniforme e sofisticato, perfetto per ambienti moderni.
La gamma è disponibile in otto colori, offrendo ampie possibilità compositive.

Matt lacquered wood is the ideal choice for those seeking to combine contemporary elegance with everyday practicality. Pleasant to the touch and capable of softening light reflections, the surface gives bathroom furniture a refined and uniform appearance, perfectly suited to modern interiors.
The collection is available in eight colors, offering wide compositional flexibility.

Gres › Fokos

Le superfici in *grés* per frontali e top combinano ricerca estetica ed elevate prestazioni tecniche. Resistenti a graffi, umidità e agenti esterni, assicurano durata, igiene e semplicità di manutenzione, mantenendo inalterata nel tempo la qualità materica e visiva del prodotto. Nelle versioni con finiture in *grès*, la scocca è proposta in legno laccato opaco coordinato ai profili metallici: *Metal Mercurio* per *Fokos Sale* e *Metal Bronzo Antico* per *Fokos Terra*.

Stoneware finishes for fronts and tops combine aesthetic research with high technical performance. Resistant to scratches, humidity, and external agents, these surfaces ensure durability, hygiene, and ease of maintenance, preserving the material and visual quality of the product over time. In versions featuring stoneware finishes, the cabinet structure is made of matt lacquered wood coordinated with the metal profiles: Metal Mercurio for Fokos Sale and Metal Bronzo Antico for Fokos Terra.

Denver

Design **FLAMINIA TEAM,** 2022

Denver è un mobile portalavabo dal design essenziale e contemporaneo, pensato per interpretare l'ambiente bagno con personalità. La struttura perimetrale in metallo con barra portasciugamano, in raffinata finitura Nero Matt, disegna le linee con rigore e leggerezza visiva, incorniciando i volumi e sostenendo il contenitore inferiore in un armonioso equilibrio di pieni e vuoti. Top e cassetti, realizzati in legno laccato e disponibili in otto tonalità offrono varie possibilità espressive. Le proporzioni bilanciate e il segno grafico deciso rendono *Denver* una presenza distintiva, ideale per spazi bagno moderni e industrial.

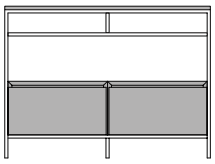

Denver is a washbasin unit with an essential and contemporary design, conceived to interpret the bathroom space with personality. The perimeter metal frame with integrated towel rail, in the refined Nero Matt finish, defines the lines with rigor and visual lightness, framing the volumes and supporting the lower cabinet in a harmonious balance of solids and voids. The top and drawers, made of lacquered wood and available in eight colors, offer a wide range of expressive possibilities. Its balanced proportions and strong graphic identity make Denver a distinctive presence, ideal for modern and industrial-style bathroom interiors.

CM3-CM3 Stone

Design **FLAMINIA TEAM,** 2022

I piatti doccia *CM3* e *CM3 Stone* rappresentano un equilibrio perfetto tra design essenziale e funzionalità. Realizzati in ceramica e caratterizzati da uno spessore di soli 3 cm, si distinguono per un'estetica minimale, ideale per ambienti bagno moderni. Disponibili in quattro colori opachi, si differenziano per la texture superficiale: *CM3* presenta una finitura bocciardata, mentre *CM3 Stone* propone un raffinato effetto pietra dal carattere più materico e naturale.
Ogni piatto è dotato di scarico estraibile da 90 mm per facilitare pulizia e manutenzione. Il copripiletta quadrato, in acciaio inox spazzolato, può essere richiesto anche in tinta per un risultato estetico più omogeneo. Installabili sia a filo pavimento sia in appoggio, *CM3* e *CM3 Stone* offrono massima versatilità progettuale.

The CM3 and CM3 Stone shower trays represent a perfect balance between essential design and functionality. Made of ceramic and characterized by a thickness of only 3 cm, they stand out for their minimalist aesthetic, ideal for modern bathroom interiors. Available in four matt colors, they differ in surface texture: CM3 features a bush-hammered finish, while CM3 Stone offers a refined stone effect with a more tactile and natural character.
Each shower tray is equipped with a removable 90 mm waste for easier cleaning and maintenance. The square drain cover, in brushed stainless steel, is also available in a matching color for a more uniform aesthetic result. Suitable for both flush-floor and surface-mounted installation, CM3 and CM3 Stone offer maximum design versatility.

Water Drop

Design **LUCA CIMARRA,** 2005

La linea di piatti doccia *Water Drop* si distingue per un'estetica fortemente ispirata alla natura. La superficie, dal carattere quasi scultoreo, è attraversata da onde concentriche in rilievo che richiamano il delicato movimento generato da una goccia d'acqua su una superficie calma. Un segno elegante che dona dinamismo e profondità visiva. Disponibile in diversi formati e dimensioni, *Water Drop* può essere installato sia in appoggio sia a filo pavimento, adattandosi con versatilità a differenti soluzioni progettuali. Le finiture opache e lucide valorizzano ulteriormente il rilievo ceramico, creando suggestivi giochi di luce e ombra. Lontano dall'essere un semplice piatto doccia, *Water Drop* diventa un vero elemento d'arredo per l'ambiente bagno.

The Water Drop shower tray collection stands out for an aesthetic deeply inspired by nature. Its almost sculptural surface is crossed by concentric raised waves that recall the delicate movement created by a drop of water on a still surface. An elegant detail that brings dynamism, visual depth, and refined plays of light and shadow. Available in various formats and sizes, Water Drop can be installed either surface-mounted or flush with the floor, adapting with versatility to different design solutions. The matt and glossy finishes further enhance the ceramic relief, creating striking chiaroscuro effects. More than a simple shower tray, Water Drop becomes a true furnishing element for the bathroom space.

Albero

Design **MASSIMILIANO ABATI,** 2010

Il sistema doccia *Albero* trasforma un gesto quotidiano in un'esperienza fortemente evocativa, dove il design diventa racconto. Un progetto ambizioso e "visionario" in cui, come afferma Massimiliano Abati, «*a una funzione viene applicata un'interpretazione*». La struttura richiama il tronco di un albero, mentre il verde dei comandi e del soffione evoca le foglie, dando vita a un elemento domestico simbolico, giocoso ed estremamente originale. *Albero* è un vero sistema progettuale: i suoi elementi, combinabili tra loro, offrono soluzioni formali e funzionali diverse. Le piastre in ceramica permettono composizioni quadrate o rettangolari di varie dimensioni e l'"albero" può essere posizionato liberamente in ogni angolo.

The Albero shower system transforms an everyday gesture into a highly evocative experience, where design becomes storytelling. An ambitious and visionary project in which, as Massimiliano Abati states, "an interpretation is applied to a function." The structure recalls the trunk of a tree, while the green controls and shower head evoke leaves, creating a symbolic, playful, and highly original domestic element. Albero is a true design system: its modular elements can be combined to create different formal and functional solutions. The ceramic plates allow square or rectangular compositions in various sizes, while the "tree" itself can be freely positioned in any corner of the space.

Oval

Design **GIULIO CAPPELLINI,** 2012

Oval è una vasca capace di offrire un'esperienza di bagno profondamente avvolgente. Gli spessori sottili ne definiscono il profilo, disegnando un ovale armonioso e puro, espressione di equilibrio formale e leggerezza visiva. Le linee curve, prive di spigoli, favoriscono una circolazione uniforme dell'acqua, che avvolge il corpo in modo naturale, amplificando la sensazione di comfort e relax. Installabile sia a parete che a centro stanza, si distingue per una semplicità lineare che le consente di integrarsi con coerenza in qualsiasi stile d'arredo e di essere abbinata con gli altri prodotti della collezione Flaminia. *Oval* nei colori lucidi è realizzata in Gelcoat e nei colori opachi in Solid Surface.

Oval is a bathtub designed to offer a deeply enveloping bathing experience. Its slim edges define the profile, shaping a harmonious and pure oval form that expresses formal balance and visual lightness. The soft, curved lines, free from sharp corners, promote an even circulation of water, naturally embracing the body and enhancing the sensation of comfort and relaxation. Suitable for both wall-mounted and freestanding installation, Oval stands out for its clean simplicity, allowing it to blend seamlessly with any interior style and pair effortlessly with the other products in the Flaminia collection. Oval is made of Gelcoat in the glossy finishes and of Solid Surface in the matte finishes.

Wash

Design **GIULIO CAPPELLINI,** 2005

Dalla famiglia Miniwash e Monowash nasce *Wash*, una compatta vasca freestanding realizzata in Pietraluce dall'estetica minimale e contemporanea, definita da volumi essenziali e linee nette. La forma rettangolare, addolcita da angoli morbidi e bordi sottili, crea un equilibrio raffinato tra rigore geometrico e leggerezza visiva.
Wash garantisce il massimo comfort grazie alla parete di fondo particolarmente inclinata, studiata per offrire una posizione ergonomica e rilassante. Il design deciso ed essenziale conferisce alla vasca un forte impatto architettonico. Installabile a centro stanza, *Wash* è disponibile in due dimensioni per rispondere a ogni esigenza di spazio ed è realizzata in Pietraluce, un materiale solido, resistente e di facile manutenzione, che garantisce durata nel tempo e una piacevole qualità materica al tatto.

Born from the Miniwash and Monowash family, Wash is a compact freestanding bathtub made of Pietraluce, featuring a minimal and contemporary aesthetic defined by essential volumes and clean lines. Its rectangular shape, softened by rounded corners and slim edges, creates a refined balance between geometric rigor and visual lightness.
Wash ensures maximum comfort thanks to its specially inclined backrest, designed to provide an ergonomic and relaxing position. The bold yet essential design gives the bathtub a strong architectural presence. Designed for freestanding installation, Wash is available in two sizes to meet different space requirements and is made of Pietraluce, a solid, durable, and easy-to-maintain material that guarantees long-lasting performance and a pleasant tactile quality.

Brick Slim

Design **FLAMINIA DESIGN TEAM,** 2018

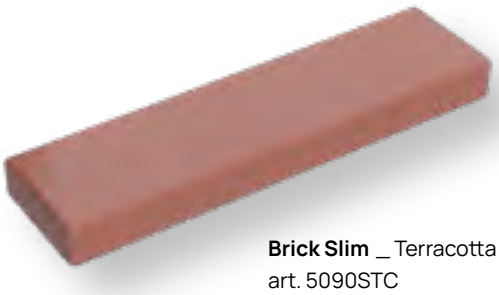

Brick Slim è una mensola in ceramica caratterizzata da linee essenziali e rigorosamente geometriche. Il volume compatto, con spigoli leggermente arrotondati, addolcisce la forma mantenendo un effetto visivo puro e sobrio. Lo spessore uniforme trasmette una piacevole sensazione di solidità e qualità materica. Un elemento versatile che si presta a composizioni modulari e pattern suggestivi, esaltando la sua natura semplice, funzionale e contemporanea.

Brick Slim is a ceramic shelf distinguished by its essential lines and rigorously geometric design. Its compact volume, softened by slightly rounded edges, refines the shape while preserving a clean and understated visual effect. The uniform thickness conveys a pleasant sense of solidity and material quality. A versatile element that lends itself to modular compositions and striking patterns, enhancing its simple, functional, and contemporary character.

Stil

Design **FLAMINIA TEAM,** 2024

Stil è una collezione di miscelatori e accessori in acciaio AISI 316L spazzolato, dove il design e la durevolezza si uniscono in un equilibrio perfetto. Una collezione completa che esprime la purezza delle forme attraverso linee moderne ed essenziali. Ogni linea racconta l'incontro tra estetica e sostanza, tra la leggerezza del design e la forza intrinseca del materiale. L'acciaio, eterno e inossidabile, dona a *Stil* una bellezza senza tempo. Naturalmente igienico e antibatterico, è facile da pulire, resistente agli urti e alla corrosione, sinonimo quindi di funzionalità e sicurezza assolute.

Stil is a collection of brushed AISI 316L stainless steel taps and accessories, where design and durability come together in perfect balance. A complete collection that expresses the purity of form through modern, essential lines. Each line reflects the meeting of aesthetics and substance, of design lightness and the intrinsic strength of the material. Timeless and stainless by nature, steel gives Stil an enduring beauty. Naturally hygienic and antibacterial, it is easy to clean, resistant to impacts and corrosion, and therefore synonymous with absolute functionality and safety.

Look

Design **FLAMINIA TEAM,** 2025

Il colore entra nel bagno come linguaggio espressivo e il rubinetto ne diventa protagonista: nasce così la collezione *Look*. La rubinetteria colorata si trasforma in un vero e proprio elemento d'arredo ed è proposta in tre finiture matt — Argilla, Carbone e Latte — coordinate alle tonalità della ceramica, per creare sofisticati abbinamenti monocromatici o interessanti contrasti. Tonalità che si integrano con naturalezza ai materiali naturali e si adattano a stili differenti, donando carattere all'ambiente anche attraverso un singolo dettaglio accuratamente scelto.

Color enters the bathroom as a form of expression, with the tap becoming its focal point: this is how the Look collection was born. Colored taps are transformed into true furnishing elements and are available in three matte finishes — Argilla, Carbone, and Latte — coordinated with the ceramic shades to create sophisticated monochromatic combinations or striking contrasts. These tones blend naturally with organic materials and adapt to different interior styles, adding character to the space even through a single carefully chosen detail.

Evergreen _ Oro
art. EG201OR

L'estetica dei prodotti *Evergreen* rievoca le atmosfere dei bagni della prima metà del Novecento, reinterpretandole con sensibilità contemporanea. La base ottagonale, segno distintivo della collezione, unisce rigore geometrico ed eleganza, dando vita a rubinetti e accessori raffinati dal gusto rétro, disponibili anche nella lussuosa finitura oro. La proposta si completa con una vasca freestanding d'ispirazione vintage per creare ambienti ricercati e dal fascino senza tempo.

The aesthetic of the Evergreen products evokes the atmosphere of bathrooms from the first half of the twentieth century, reinterpreted with a contemporary sensibility. The octagonal base, the collection's distinctive feature, combines geometric rigor and elegance, giving life to refined taps and accessories with a retro-inspired style, also available in a luxurious gold finish. The collection is completed by a vintage-inspired freestanding bathtub, designed to create sophisticated interiors with timeless charm.

La vasca *Evergreen* si distingue per la sua forma ergonomica e il guscio bianco lucido. È impreziosita da piedi decorativi e da una colonna di scarico in ottone, disponibili nelle finiture bianco, oro e cromo. Progettata per l'installazione a centro stanza, dona eleganza e personalità a qualsiasi ambiente.

The Evergreen bathtub stands out for its ergonomic shape and glossy white shell. It is enhanced by decorative feet and a brass waste column, available in white, gold, and chrome finishes. Designed for freestanding installation, it brings elegance and character to any setting.

X1

Design **FLAMINIA DESIGN TEAM,** 2017

La linea di rubinetti *X1* unisce essenzialità, pulizia formale e proporzione. Curve morbide e spessori sottili definiscono un profilo delicato ma deciso, dando vita a un'estetica semplice e pura. Realizzati in acciaio inox, materiale sinonimo di durevolezza ed ecocompatibilità, i rubinetti *X1* si distinguono per la finitura spazzolata, che dona riflessi opachi e setosi, valorizzando la qualità materica e conferendo all'insieme un carattere solido e minimale.

The X1 tap collection combines essentiality, formal clarity, and balanced proportions. Soft curves and slim thicknesses define a profile that is both delicate and distinctive, creating a simple and pure aesthetic. Made of stainless steel — a material synonymous with durability and sustainability — X1 taps stand out for their brushed finish, which gives soft matte reflections, enhancing the material quality and lending the collection a solid, minimalist character.

Nokè

Design **PATRICK NORGUET,** 2007

Nokè _ Cromo
art. NK3220

Noké è una collezione completa di rubinetti dal design distintivo, nata dalla ricerca di equilibrio tra funzione e forma. La geometria, solo in apparenza semplice, è studiata con precisione: proporzioni calibrate e curve definite guidano ogni gesto. Linee pulite e l'inedita sezione ovale di canna e leva ne caratterizzano l'identità, in un gioco armonico tra rigore e morbidezza.
Nei modelli da piano il corpo slanciato si piega in una curva fluida verso l'erogazione, mentre nella versione a parete emerge una presenza compatta e decisa. Il risultato è una collezione che supera la funzione tecnica per diventare vero elemento architettonico. *Noké* è disponibile sia nella finitura Cromo che Nero matt.

Noké is a complete tap collection with a distinctive design, born from the pursuit of balance between function and form. Its geometry, only seemingly simple, has been carefully engineered: calibrated proportions and defined curves guide every gesture. Clean lines and the innovative oval section of both spout and lever define its identity, creating a harmonious balance between rigor and softness.
In the countertop versions, the slender body bends into a fluid curve towards the water outlet, while the wall-mounted models express a compact and decisive presence. The result is a collection that goes beyond technical function to become a true architectural element. Noké is available in both chrome and matte black finishes.

One

Design **L.+R. PALOMBA - S.MORI,** 2003

Di estetica leggera e dal forte impatto visivo, dalla ricerca di *Mies van der Rohe* a quella di *Kjaerholm*, la fascia è sempre stata protagonista nel mondo del design colto, trovando innumerevoli applicazioni nell'arredo e nell'architettura. La collezione di rubinetti *One* si inserisce in questa tradizione progettuale, reinterpretandola nel mondo dell'acqua come espressione di una contemporaneità essenziale. Le linee sono pure e rigorose: le canne di erogazione, sottili e quasi a lama, presentano spigoli leggermente smussati. Le leve, piatte e allungate, con profilo rettangolare dagli angoli arrotondati, richiamano un'estetica attuale e coerente. Discreto e non invasivo, il design di *One* si integra con naturalezza in ambienti bagno moderni e minimalisti, valorizzando ogni dettaglio attraverso una precisa ricerca formale.

With its light aesthetic and strong visual impact, the metal band — from the research of Mies van der Rohe to that of Kjaerholm — has always played a leading role in the world of refined design, finding countless applications in furniture and architecture. The One tap collection fits into this design tradition, reinterpreting it in the world of water as an expression of essential contemporaneity. The lines are pure and rigorous: the spouts, slim and almost blade-like, feature slightly softened edges. The flat, elongated levers, with their rectangular profile and rounded corners, evoke a coherent and contemporary aesthetic. Discreet and non-invasive, the design of One integrates naturally into modern and minimalist bathroom spaces, enhancing every detail through precise formal research.

Fold

Design **LORENZO DAMIANI,** 2010

Fold
art. FL3059

Fold è una collezione di rubinetti e accessori da bagno in tubolare cromato, realizzata mediante piegatura meccanica, da cui deriva il caratteristico profilo schiacciato che identifica l'intera linea. L'estetica dinamica della collezione nasce proprio dal concetto di piegatura, intesa come gesto progettuale capace di modellare la forma e definirne il carattere. Il dettaglio della piegatura diventa così elemento distintivo dell'intera gamma di miscelatori e accessori. Il corpo cilindrico si sviluppa secondo proporzioni equilibrate, mentre le linee che ne definiscono il profilo risultano nette ma mai rigide. Ogni cambio di direzione è addolcito da raccordi continui, che restituiscono fluidità e coerenza visiva, dando vita a un insieme armonico, originale e contemporaneo.

Fold is a collection of chrome tubular taps and bathroom accessories, created through a mechanical bending process that gives rise to the distinctive flattened profile identifying the entire line. The collection's dynamic aesthetic stems precisely from the concept of bending, intended as a design gesture capable of shaping the form and defining its character. The folded detail thus becomes the distinctive element of the entire range of mixers and accessories. The cylindrical body develops through balanced proportions, while the lines defining its profile are sharp yet never rigid. Every change of direction is softened by continuous connections that create fluidity and visual coherence, giving life to a harmonious, original, and contemporary collection.

Si

Design **A. DURINGER-S. ROSINI,** 2004

Si
art. SI2023

Gli elementi della collezione *SI* sembrano piccole sculture contemporanee, dove funzione ed estetica si incontrano in un dialogo perfetto. La rubinetteria interpreta, attraverso la semplice geometria di un nastro, lo scorrere e lo sgorgare dell'acqua, traducendone l'armonia e il flusso naturale. Fuori dagli schemi, *SI* nasce dall'unione tra ricerca formale e funzionalità: un unico segno, grafico e scultoreo al tempo stesso, lineare ma fluido, capace di rispondere con naturalezza alle esigenze della gestualità quotidiana. La finitura cromata lucida amplifica la luce attraverso eleganti giochi di riflessi, valorizzando il carattere essenziale e contemporaneo della collezione.

The elements of the SI collection resemble small contemporary sculptures, where function and aesthetics meet in perfect balance. Through the simple geometry of a ribbon, the taps interpret the flowing and springing of water, translating its harmony and natural movement. Breaking away from convention, SI is born from the union of formal research and functionality: a single sign, both graphic and sculptural, linear yet fluid, naturally responding to the gestures and needs of everyday use. The polished chrome finish enhances the light through elegant reflections, emphasizing the essential and contemporary character of the collection.

Hoop

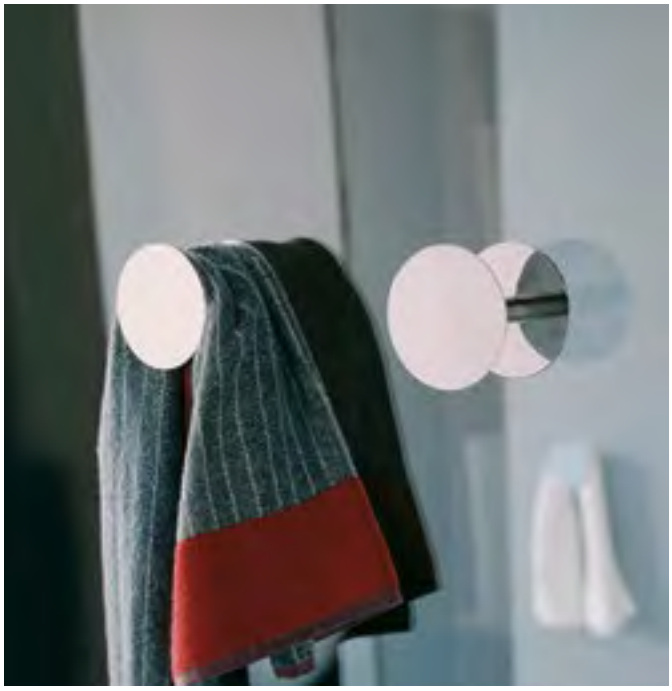

Design **RICCARDO ROSELLI-JEREMY KING,** 2000

Gli accessori *Hoop*, disegnati dagli architetti King e Roselli per le camere e le suite dell'ES Hotel di Roma, nascono da un segno puro: il cerchio. Una forma perfetta che diventa elemento progettuale e cifra stilistica. Liscio, essenziale, armonioso, il profilo circolare esprime un'estetica minimalista, adatta a ogni ambiente. La collezione unisce funzionalità e rigore formale, facendo della semplicità la sua forza. Per la *Hoop* è prevista sia la finitura cromo lucida che nero matt.

The Hoop accessories, designed by architects King and Roselli for the rooms and suites of the ES Hotel in Rome, originate from a pure sign: the circle. A perfect shape that becomes both a design element and a distinctive stylistic feature. Smooth, essential, and harmonious, the circular profile expresses a minimalist aesthetic suited to any environment. The collection combines functionality with formal rigor, making simplicity its defining strength. Hoop is available in both polished chrome and matte black finishes.

Two

Design **FLAMINIA DESIGN TEAM,** 2005

Two è una linea completa di accessori dal design semplice e pulito, capace comunque di esprimere una forte identità progettuale. Il progetto si sviluppa sul contrasto tra il supporto cilindrico e gli elementi frontali, piatti e sagomati, creando un equilibrio visivo tra solidità e leggerezza.
Le forme sono compatte, con profili tondi e ben definiti che conferiscono coerenza all'intera collezione. *Two* è una soluzione flessibile e funzionale, che unisce praticità ed eleganza in un linguaggio contemporaneo.

Two is a complete accessories collection with a simple and clean design, yet capable of expressing a strong design identity. The project is based on the contrast between the cylindrical support and the flat, shaped front elements, creating a visual balance between solidity and lightness.
The forms are compact, with rounded and well-defined profiles that give coherence to the entire collection. Two is a flexible and functional solution that combines practicality and elegance within a contemporary design language.
